The short answer and essay provide you an opportunity to present your ideas to the Admissions Committee. We are eager to learn more about your intellectual and personal interests—to get to know you better. We urge you to give careful consideration to the form and content of your answers to the short answer and essay questions.

D. SHORT ANSWER

1. Please answer the following in the space provided. You may attach a separate sheet of paper, but limit your answer to no more than one-half page.

Consider the books you have read in the last year or two either for school or for leisure. Please discuss the way in which one of them changed your understanding of the world, other people, or yourself.

E. ESSAY

Please answer *one* of the following questions. Circle the letter below for the question you have chosen to answer. Attach your essay to this inside page. Be sure to include your name and address on the attached sheet. If your essay is typed or computer printed, please double space. Please limit your essay to no more than 2–3 pages.

- a. According to Stephen Carter, we can admire those with integrity even if we disagree with them. Are there people you admire even though you deeply disagree with them? What do you admire about them? How do you reconcile this apparent contradiction in your assessment?
- b. What has been your most profound or surprising intellectual experience?
- c. Please write on a matter of importance to you. Any topic is acceptable. If you have written something for another purpose—even an essay for another college—that you believe represents you particularly well, feel free to submit it here. As a guideline, remember that we are especially interested in issues of personal significance.

We recognize that all good writers seek feedback, advice, or editing before sending off an essay. When your essay is complete, please answer the following: Whose advice did you seek for help with your essay? Was he/she helpful? What help did he/she provide?
